CELEBRATING 30 YEARS OF AGRISPARES

For 30 years, our Wiltshire-based company has been at the forefront in supplying quality replacement and original parts for self-propelled forage harvesters, combine harvesters and the entire range of harvesting equipment.

Headed by Jeremy Thompson – who has been with us since 1993 – we supply parts across the UK, operating a countrywide next day delivery service, stretching from Cornwall to the Scottish Islands, Wales to East Anglia, and all points in between. We even export to customers in the Irish Republic, Spain, Portugal and further afield.

Starting life as a small agricultural spares operation in 1990, we now source parts from France, Germany and the USA, all manufactured to a high specification, and often outlasting original equipment - especially if they are well maintained - so saving our customers money and avoiding downtime. We also have a sister company, Bearings Plus based in Melksham supplying local trade with transmission products for industry & agriculture.

“saving our customers money and avoiding downtime...”

Our customers can rely on us to supply blades, shearbars, belts and all wearing parts, for a wide range of machines including Claas, John Deere, Krone and New Holland. We are leading stockists of quality replacement Kemper maize header parts and we supply a vast range of bearings, drive belts, oil, fuel, hydraulic and air filters for power units.

Our sales team are constantly updated with the latest modifications to machines, to ensure our customers have the right parts to maximise performance.

For customers new and old, please get in touch with us on 01380 850001 so that we can update our records and have the right parts for your machines this season. Or visit our website at www.agrispares.co.uk.

CELEBRATING CUSTOMERS ACROSS THE COUNTRY

SUSTAINABILITY IS WATCHWORD FOR BUN SYMES

Bun Symes Contracting is a professional and highly skilled agribusiness dedicated to ensuring profitability for both its clients and the family farm, while farming in a sustainable and environmentally friendly way.

The Isle of Wight based company, headed by Managing Director Bun Symes, uses high tech machinery, skilled staff and innovative methods to promote long-term soil health. It uses yield mapping to improve yield and profitability, while reducing costs and the impact on the environment.

Bun is supported by a highly skilled, full-time team of four and dedicated office staff. Buns' daughter, Sarah Symes, is a qualified independent agronomist working with Hampshire Arable Services, who plays an active role in the business and also enables the company to offer an independent agronomy services to clients.

ONE TRACTOR DRIVES CREATION OF NP DAVIES

The saying 'from small acorns big oak trees grow' applies perfectly to NP Davies, set up in 1981 by Nigel Davies, with one Fiat 780 tractor used for ploughing and small square bailing.

The Wolverhampton-based business upgraded to a Ford 6610 tractor in 1982, and added mowing, turning and power harrowing to it's portfolio

N.P. DAVIES
AGRICULTURAL CONTRACTOR

Over the years, NP Davies has developed and grown into a business specialising in providing agricultural machinery for specific enterprises, while offering a competitive and professional service. The company employs local, high skilled workers and carries a large quantity of spare parts for each machine, for servicing and repairs to ensure a continuous and reliable service.

NP Davies is a member of the National Agricultural Association Contractors, adhering to its strict codes of conduct and keeping up-to-date with changing legislation and industry requirements. The company is also a member of the Maize Growers Association.

RM SIMPSON INVESTS IN QUALITY SERVICE

Investment and remaining competitive are the keys to success for RM Simpson.

The Yorkshire Based, family run contracting business was founded in 1984 and it is now the second generation of the Simpsons holding the reins.

R.M.Simpson **AG LTD**
Agricultural Contractor

The business has invested in the latest and most cost effective agricultural machinery to ensure it performs to the highest possible standard. The team pride themselves on providing the best agricultural contracting service at competitive prices, ensuring customers' jobs are completed quickly and efficiently. Their motto is to deliver a first class service, with well maintained and up to date equipment.

CELEBRATING CUSTOMERS ACROSS THE COUNTRY

FROM DAIRY TO CONTRACTING FOR P RUSSON & SONS

Now a major agricultural contracting service, P Russon & Sons began life back in 1973 as a Lincolnshire dairy farm.

Founder Peter Russon - himself the son of a farmer - soon diversified into agricultural contracting, and this side of the business accelerated in the 1980s when Peter became an early pioneer of maize growing. Contracting began first with maize drilling, later expanding to cover a complete forage crop establishment and harvesting operation.

Peter's son, Tim Russon, has continued to develop and expand the contracting side of the business into a large progressive operation it is today, providing contracting services to farmers and landowners throughout Lincolnshire and the surrounding counties.

Although a wide range of services are now offered, the main focus remains a complete forage operation, from sewing to clamping. This is rapidly expanding with the advent of anaerobic digestion plants in the region.

The business still farms 136 hectares of its own land and Tim runs a beef suckler herd.

P RUSSON & SONS

WORKING WITH LANDA FOR THREE DECADES

We are proud at Agrispares of our partnership with Landa, since the 1980s acting as the only UK importer of their spares, ensuring we are always able to meet our clients' needs for quality parts.

"After so much time working side by side, we have developed very close cooperation," commented Alexis Bertrand, Head of International Sales at Landa. "Thanks to the professionalism of Agrispares we know we have made the right choice in them as our exclusive partner. Landa values are delivering quality parts and quality customer service, and Agrispares are 100 percent involved in these values."

"Our cooperation continues to progress and we are ready to face new challenges together."

CUSTOMER TESTIMONIALS

“We have been dealing with Agrispares for about ten years and they supply spares mainly for our forager, combine and grain harvester equipment. I always go to Agrispares first as they have the knowledge and delivery expertise that I need, and they are very helpful.”

Tom Lingham, Partner, K I Lingham, Kent.

“I get most of my parts from Jeremy and Agrispares and have been working with them for 12 or 13 years. When I identified where I could get a Kooima shearbar in the US, we worked together and were the first to import them. Agrispares are very fair on price and are very experienced, so we trust them to give us the best advice.”

Alan Roberts, Partner, RA Roberts Contracting, Shropshire

“Agrispares have been supplying parts to us since the 1990s and are a very good company. They give us a good price, great service, and I know I can phone them one day and the right part will be with us the next.”

John Reed, Director, SJ Reed Agricultural Contractors, Devon

“Agrispares are very knowledgeable and helpful and they have the right attitude. Their spares are all competitively priced, and their delivery service is excellent. We get good advice from them, and if they haven't got something they will always be able to get it.”

Martin Bell, Partner, M & M Bell, Aberdeenshire

QUALITY

We provide the best value parts available. We source premium quality parts from original equipment manufacturers around the world to bring you the best quality at the most competitive prices, ensuring you have the best value for money available in the marketplace.
